

Rīga, 09 April, 2021

***Announcement of the results
of the tender for supply of reverse vending machines (RVM) and related services for
automated collection of packaging waste collected in the deposit-refund system in
Latvia (ID No. RVM2021)***

We are glad to inform you that after careful evaluation of all Tender offers, their compliance with the Tender Regulations, analysing different aspects of the submitted offers (both minimum criteria and additional requirements), including, but not limited to the offered RVM model range, offered price / service fee, usage and servicing convenience, detailing of the RVM supply and Service solution implementation plan and overall participants qualification, experience in large scale RVM project rollout, financial and economical capacity, SIA “Depozīta Iepakojuma Operators” have recognised Tomra Systems ASA Tender offer as with the lowest price and the most suitable offer within the Tender regulations and therefore decided to declare Tomra Systems ASA as the winner of the Tender.

Miks Stūrītis*
Chairman of the Board of
SIA “Depozīta Iepakojuma Operators”
